Summary

Motivated and detail-oriented Software Engineering graduate with a strong foundation in web application development and hands-on internship experience in real-world projects. Skilled in designing, developing, testing, and maintaining responsive and user-friendly software solutions using modern technologies. A quick learner with a problem-solving mindset, strong teamwork skills, and a passion for continuous learning and building practical, scalable systems.

Work Experience

FULL- STACK DEVELOPER (INTERN)

CSI World (Pvt) Ltd

July 2025 - December 2025

- Completed company orientation and gained an understanding of CIS World's organizational structure, services, and development workflow.
- Assisted in web development projects by working on website design, layout structuring, and content updates.
- Developed and maintained web pages using modern web technologies, ensuring responsiveness and user-friendly design.

FREELANCE SOFTWARE / WEB DEVELOPER

Self employed

present

- Designed, developed, and maintained custom websites and web applications for individual clients and small businesses.
- Gathered client requirements, translated ideas into functional software solutions, and delivered projects within agreed timelines.
- Built responsive, user-friendly interfaces optimized for performance and cross-device compatibility.
- Implemented front-end and back-end features, ensuring clean code, security, and scalability.
